12 Our city erjoyed a retreshing shower yesterday afternoon. It was just in time to all y the audumulated dust, and cool the heated atmosphere.

The telegraph announces another murder in Memphis, and great excitement among the citiz as.

We have heretofore made mention of the fact that the Swiss citizens of Nushville and vicinity are making extensive preparations to celbrate the 4th of July. Yesterday we saw tho splendid flag which is to be presented by the young ladies to the Sw ss Relief Society on the occasion. It is a beautiful ensign upon which are blended emt lems of American and Swiss national ity, indicative of the position of the patriotic Switzer in our "land of the free and home of the brave." The painting was done by Mr. Charles Reguin, and is very creditable to his skill and good taste as an artist. We trust that the celebration street, opposite the Sewanee, or by addressing the may pass off in the pleasantest manner to all who President, WM. STOCKELL, or Secretary B. K. WALmay participate in it.

We are requested to say that Mr. John Shaue will address the meeting of Young Men Saturday night, called to form a Halton Club.

VALUABLE REAL E-TATE, ETC., FOR SALE .- We pre would direct attention to the sale of the very valuable property of the Nashville Manufacturing me Company, advertised in the Parmor this morning. me Tae real estate is excellently located, and, to perget sons desiring to embark in enterprises similar to the that which the manufacturing company was recentby engaged in, is really invaluable. The iron, tool &c., present a fine opportunity for good bargains.

Corporation Taxes .- At the meeting of the pul Ciry Council yesterd y, the taxes for the present tio year were levied. The tax on real estate and per-July sonal property was fixed at \$1 05 on the hundred ille for corporation purposes, and 20 cents on the hun-Its dred for school purposes. This is the same rate to that was paid in 1855, but a little higher than that

The taxes are due and payable on the 1st of next month, and we expect to see the annual proclamation of the Collector in a few days. At the same meeting, the water tax was in-

creased 25 per cent. BOARD OF EDUCATION .- The City Council yester-

Correspondence of the Patriot. CINCINNATI, June 20, 1857.

O Patriot! We were Swallowed! We stepped on board the beautiful steamer Swal m low on Monday, June 15; and, having left all care of in Nachville, resigned ourselves to the tender mercies of Capt. Alex. Frazier and the uncertain mercies of the venerable Eulus. Both favored us, and we walked down the Cumberland River a pos

The scenery on the banks of the Cumberland is very beautiful. Though not of a style appreciated | Price, Two liorse M. chine \$150, Four Horse Machine \$160 by those nature-lovers who demand an exaggeration of height, depth, length, and breadth, nor by those who require a multiform variety of water, tataractic, cascadio, hydrostatic, or water-spoutic, yet it has many charms for those who love nature in repose. There is an apparent monotomy in much of the scenery; but it is none the l ss beautiful for this seeming defect. Byron says: "There is society where none mirude, "

So there is a variety even in this monotomy. For all who appreciate the nature that floats with liquid purity and glassy sleepliness in labarynthine windings; that bugs itself and crouches thick in a density of woods, on a shore overlanging, underhanging, perpendicular, and inclined; for all such the Cumberland River presents a feast for the eye, and a vehicle for carrying the soul from "nature up to

We arrived at Smithland at night, and early next morning regaled ourselves with a breeze-inhalation on the Obio. Above Smithland we encountered a heavy rise. The river has, however, commenced falling, although slowly, with six feet water on the wet, and some fears are entertained that but little more rain will injure the crops. At present, the crops all along the Ohio are unprecedentedly thriving. Corn is springing up to ripeness with rapidity, and wheat and oats are also very flourish-

Miss Macarty goes to fulfil an engagement at Lexington, Ky., and Mr. Huntington is exiling himself for his health. For exceful, thoughtful, and attentive officers, commend us to those of the Swellow, Captain Frazier has the thanks of all on toard for his gentlemanly courtesy, and his personal interest in the convenience and pleasure of those on board. When every officer merits the thanks of the passengers, it might appear levidious to make distinct lions; but we connut close this letter without, in e name of those on board, returning thanks to Mosers, Franier, Cullum, and Davidson for their successful efforts to make the trip from Nashville to Cincinnati pleasant and agreeable. We cordisly commend this beautiful and swift craft to the publio. The Swellow will be due at Nashville again on the 28th of June. Her freight consisted of 2,500 bushels of corr, 150 tons of iron, and 40 tons of merchandize. The weather is cool and pleasant. Yours, as of yore, F. U. S. More abon.

Chickering and Sons' Piano Fortes.

AT THE EIGHTH EXHIBITION OF THE MASSACHUSETTS CHARITABLE MECHANICASSOCIATION in 1856,

Report of the Judges, J. C. D. PARKET, GEO. MINOT, LEVI P. HOMER. WM. REED, OTTO IRESEL. GEO. M. WARREN, The following instruments were offered for examination, in competition for awards:

Forty-eight Piano Fortes, subdivided as follows: Nineteen Grands.

Two Parlor Grands. Thirty-three Equares, In the department of Piano Fortes, the committee, uniting into one class, as is obviously correct, the Grands, Semi Frands and Parior Grands, recommend the following awards;

Chickering & Sons, for their Grands, Semi-Grands, and Parior Grands, for most decided and meritorious improvements Chickering & Sons for the two best Fquere Piano Fortes, of Seven Octavo each, the first Silver Medal. The committee, incoming to a certaion upon the merits of the several instruments of which they have just determined their award, were of entire unanimity. They did not heaftate for a moment in deciding that the Grand Piano Fortes from the justry celebrated house of the Messrs, Chickering a Sons, were not only altogether manifestly superior to all com-petitors at the present Exhibition, but were an equally manifest, and greatly advanced improvement over the wellmmended product in of the same catablishment offered at anterior Exhitions. And the committee not only feel it to be a pleasure, but an oblious dury, to congratulate the present heads of this long established house, that they hav so well sustained its high repute. The memory of the good name, and of the good deeds, and of the great skill of its ound r, that long be then h-d; and it is a matter of equal satisfaction and price that the garment of praise he has so fairly won and wore, has fallen upon shoulders worth: to receive and able to honor it. The Semi-Grands of thickering & Sons, and a Pattor-Grand by the same firm, were superbinstruments; and this last The Semi-trait do of Bickering & Sons, and a Parlor-Grand by the same firm, were superconstrument; and this last had the saveral varieties of Grands, Semi-Grands, and Parlor-Grands been kept distinct in class, would have been entitled, a highest award, both for it own in rinsic ment, and as a new and meritorious invention. But all these were united into one class, and the award was made accordingly. The Parlor-Grand, first evanuated from the house of Chickering & one, and made its appearance at the exhibition of 1873, and the committee of that year awarded to it a Gold

Medal; but inasmuch is the late is mented head of the firm was a member of the then Government of the Society, the award could not be confir ed consis ently with the laws of the Association. It would afford the committee great satisction could it is awarl be now confirmed. That the judge ent of the committee may be distinctly understood, they now repeat their awards on the class of in ruments under discussion. They put the experal varieties into one class, and they award to Chickering & Sons the rst p emium to cover the three variaties offered by them-Gold Media.

In the class of Square Piano Fortes, the awards of the committee were made with equal unanimity. The instruments of Chickering & Sons are at the head.

It is not necessary to discuss the merits of the other Square Plano Fortes in detail. Those to which awards have been assigned are placed in the order of their merit, as adjudged by the committee, and those of which special mention is not made are passed by as not coming up to a just standard of excellence.

From Baron Liebig. "The specimens of your Pale Ale sent to me afforded me nother opportunity of confirming its valuable qualities. I am myzelf an admirer of this beve-age, and my own experionce enables me to recommend it, in accordance with the opinion of the most eminent English physicians, as a very serveable and efficient tone, and its a general becer-age, both for the invalid and the robust.

From Professor Grahom, F.R.S. University College, London; and Prof. Bofmann, Ph.D. F.R.S. College of Chemistry, London.
"The sifting nature of the chemical examination which

the Beers of Mesers. ALLSOPP'S manufacture for many months past have been subjected to, fully establishes their ncontestable purity. The process of brawing Pale Ale is one in which nothing but water and the best male and hour. of the first quality, are used, if is an operation of the present delicacy and care, which would be en icely uned by any tempering with the materials employed. "London, April 26." From the Analytical Similary Commissioner of the "Lancet," May 15, 1854. "From the pure and wholecome nature of the ingredients mployed, the moderate preportion of alcoholpresent, and the very considerable quantity of aromatic anodyne bitter preserve the tone and vigor of the Stomach, and conduce to the restoration of the health of that organ when in a state of weakness or debility. They resemble, indeed,

from their lightness, a Wige or Mair rather than an ordinary fermented infusion; and it is very satisfactory to find that a beverage of such general consumption is entirely free from every kind of impurity." From Prof. Muspratt, F.R.S.E. member of the Royal "I have carefully examined and analysed samples o your Ales, and find that they do not contain a particle o any injurious substance. I and my family have used your Ales for years, and with perfect confidence in their purity. I know that pule Ale, when prepared, as it must Iriah Acudemy. be in your Brewery, under scientific surveillance, contains a large quantity of nutritious matter, and the hop, by its

onic properties, gives a healthy tone to the stomach. *College of Chemistry, Liverpool, April 26."

From George Budd, M. D. Senior Physician of King's College Hospital.

"I did not want any testimenty to satisfy me of the perfect purity of the Pale Ale manufactured by you. A close observation of its effect upon myself, and upon many others to whom I have prescribed it, long ago convinced me, as much as the most searching chemical analysis could o, that it contains nothing more than malt and hops, and hat it is a first rate beverage," "Dover street, May 1."

From Marshall Hall, M. D., F.F.S.

"My confidence in the purity of your Pale A'e remains unshaken and my opinion of its great cuites in a dielectic and remedial point of view is entirely confirmed by long time and experience.
"Groscenor street, April 30." From Ranfield Vision, Esq., Surgeon,
"ALLSOF 's Pale and Bitter Ale is one of the most useful
of beteruyes, possessing careedingly calculate tente properties in an elegant form Lupuline, or the active principles of the top, is a well known tonic, but is apt to dwagree with the stomach when given simply; it is usual, then, when prescribed, in combine it with some currigent; no bet'er can be than the extractive matters of mait; hence, as the analysis of your Beer has proved it to be a fermented solution of male and hope only, we have a most useful

medicine in a mo t acceptable form, "Crossan, Cornwall, June 7."

"For many years I have been in the habit of recommend-ing the use of ALLSOPP'S Bilt or Boer as a beverage to nvalids who required a regulated dist; and I certainly could not have done so, un'ess from the evidence that the liquor was perfectly fermented, and made from the best and most wholesome ingresients.
